**Subject:** Organizing Conference Call on Methylene Chloride and Bathroom Fatalities

As most of you know, EPA is working to organize a conference call with federal, state, local, and academic partners that have expertise and experience on methylene chloride. This would include CA EPA, CA DTSC, CA DPH, OSHA, TN OSHA, CPSC, Ken Rosenman from Michigan State, Steve Whittaker with King County, WA, and others as appropriate. The purpose of this call would be to share latest information on recent fatality in TN from methylene chloride in bathtub refinishing, get an update from all involved parties on various regulatory or other activities on methylene chloride, brainstorm on efforts that could mitigate future fatalities, and agree on next steps. Attached is a tentative agenda. Any comments or suggestions on the agenda are welcome.

Here are some time slots that could work for the EPA team. Please let me know which slots are best for you. To minimize emails, please just email me with your preferred availability.

Thanks much. Best, doug

Available slots:

1. June 28 @ 1, 3, or 4 pm
2. July 6 @ 1 pm
3. July 10 @ 1 or 2 pm
4. July 11 @ 2 pm
5. July 12 @ 1 or 2 pm
6. July 13 @ 3 pm
